

60 boards an hour is now a reality! Vanguard Digital Printing Systems Introduces three UV printers that print a 4'x8' board in less than a minute!

Lawrenceville, GA USA – October 03, 2019 – Vanguard Digital Printing Systems (VDPS) has again expanded their award-winning portfolio of LED UV wide format inkjet printers. Vanguard Digital is proud to announce the addition of the NEW VK300D-HS, VKM600T-HS, and VKR3200-HS line of UV printers.

The printers will be introduced at Printing United. VDPS booth # is 8450.

The mid-level VKM600T-HS prints an entire 4'x8' board at an astounding speed of less than a minute, in Quality mode. The VKM600T-HS is the most affordable machine in its class with an introductory price of \$124,995. Following in the footsteps of the VKM600D-HS, the Vanguard Digital VK300D-HS UV flatbed printer prints an entire 5'x10' high-quality board all in less than a minute. Built on the same 4-time SGIA Product of The Year award winning platform, the VK300D- HS has an introductory price of \$179,995. The VKR3200-HS 3.2m / 126" Roll-to- Roll UV printer combines the same technology and delivers up to 3,000 square feet an hour in quality mode, with an introductory price of 135,000.

These new UV printers utilize the latest state of the art printhead technology with high speed electromagnetic drive system to deliver unparalleled results never seen before in the market. Vanguard Digital has crafted their world class UV printer portfolio by utilizing the highest quality components in their construction which allows these results to be delivered for years to come. Vanguard Digital Printing Systems thoughtfully engineers their machines with the most advanced printhead technology, high speed electromagnetic drives and liquid cooled LED technology to deliver unmatched quality and speed.

Following in the footsteps of its predecessor, Vanguard Digital Printing Systems is proud to announce the VK300D-HS is the recipient of this year's SGIA Product of the Year Award in the High-Volume Production Class category.

These new printers expand Vanguards market leading performance into the high-volume production class market. When combining the speeds of these new machines along with the latest print head technologies firing ink drops as small as

3.5 picolitre, VDPS will ensures best in class performance for not only today but tomorrow also.

"We are exceptionally proud of our team, as well as grateful for our customers who have provided us the opportunity to become the innovative market leaders we are today. As proud as we are of our team's accomplishments in delivering these new printers, it's important to emphasize that a printer is only as good as the support provided after the sale." Dave Cich – President & CEO

“The philosophy instilled within The Vanguard Team is entirely customer centric. With our client’s best interests at the core of what we do, we will continue to out- service our competitors so that our family of clients can experience an outstanding return on their investment. Offering the best-in-class service has been and will always be the formula for our success.” – Jim Peterson, COO
