

# Phoenix 2700-DH

## Phoenix 2700-DH Dual Heat Laminator - Education Model

The Phoenix 27" Education Model is perfect for the School/Office markets. It's tabletop design is great for small working areas. Laminate any size document up to 27" in width.

Designed for preserving and enhancing larger size documents, a roll laminator can help you to laminate a large poster or several smaller items. It is a cost effective solution for your school, office, copy or print shop center to laminate with 1.5 mil or 3.0 mil, 1" or 2-1/4" core laminating film!

With this roll laminating machine being used in schools and larger sized offices, we realize that safety is of the utmost importance. That is why the Phoenix roll laminator includes the latest in safety innovations and energy saving technology! Safety measures include safety latches on feed tray and safety shield preventing the unit from running if they are not in place. To conserve energy, the machine will drop into a standby mode (176°) if unit has been idle for 3 hours. If there is no activity on the unit for 4 hours, the heaters turn off.

### FEATURES:

- Laminates up to 27" wide
- Auto standby with 176° hold temperature
- Adjustable speed control
- Reverse feature
- 2-1/4" diameter heated rollers
- Feed tray with paper guide
- Accepts 1.5 to 3.0 mil films
