USER-CENTERED MFP SYSTEM

FADGI compliance. Together with Nextimage 6, SD One MF exceeds FADGI 3-star compliance.

Your personalized MFP solution

SD One MF is an innovative concept in MFP solutions. Centered around you, every user has a unique personal profile with their preferences stored, allowing you to email or save to your preferred folder or personal Cloud in just one step.

Information sharing

Using the embedded controller and the built-in multi-touch screen, you can mark up your scan and share it digitally.

Printer choices

And if you need to print, SD One MF fully integrates with major printer brands, giving you the flexibility to link this powerful scanner with your choice of printer.

Powered by X-Rite®

The ICC Color Management in Nextimage 6 software is made with X-Rite® color profiling.

Embedded controller

Directly control your scanning process on the built-in 7" multi-touch screen.

Cloud service

Scan to your favourite cloud services.

Full color

SD One MF supports full color scanning.

All popular file formats

Supports all popular scan file formats – like PDF, TIFF and JPEG.

Contex SD One MF delivers simplicity to the MFP

Improving the original
Double-sided LED light inside the scanner eliminates any shadows on the scan even if the original is in poor condition.

Workflow optimization
Annotate directly into the scanned image then save it to your preferred file. SD One MF creates a new workflow for your scanning environment.

HP ready EPSON ready Canon ready

SD One MF is compatible with leading large format printers. See the full list of supported printers in the Release Notes for SD One MF at contex.com/support/software-sdonemf/
